TeamBoard Tilt Trolley

Electric height adjustable tilt to table trolley

TM-TMTS-TILT

Overview

The **TeamBoard Tilt trolley** is proudly engineered and designed to enable our customers to make the most out of their multi-touch technology.

Designed and modified over the past 15 years, we believe the TeamBoard range is the premium trolley on the market for mobile touch solutions.

The **TeamBoard Tilt trolley** offers the widest range of movement and flexibility to ensure every user gets the optimal use of their space.

The high-quality steel construction and professional finish completes the most robust and versatile trolley series on the market.

The **TeamBoard Tilt trolley** offers a full range of electric height adjustment for the perfect presentation at any height to suit the audience and presenter, built to cater for large screens.

Available to fit non-TeamBoard screen technology.
