TeamBoard is pleased to announce the Canadian List Price for the TeamBoard Total Mobile Bundle has been reduced to \$7095 CAD, a permanent price reduction of over \$1000.

“This represents a tremendous savings to our customers both in education and corporate markets in Canada, allowing them to leverage their technology dollar further than ever before”. The bundle includes a TeamBoard RT 77” interactive whiteboard and the new Sanyo DWL2500 Ultra Short Throw projector along with the Total Mobile stand that integrates the installation of the three components and provides accommodation for the presenter’s own laptop. With 26” of push-button vertical height adjustment and the ability to move the entire unit from room to room by simply unplugging a single power cord from the wall, rolling it through any standard doorway, and powering up in the new location with no reconfiguration required. “This product configuration has proven extremely popular in both K-12 and postsecondary settings, thanks to its versatility and Easy Does It® friendliness.”

TeamBoard presenters can also access our QuickStart guide, Manual, Picture-In-Picture self-training modules, and the TeamBoard Academy Professional Development courses.

Note: Order TMSMTMSABL-BD1 with TMWM6250EM or TMWM6250CL. Replaces TMUST62M-MK.
